

AFDS

ANY FORMAT DISPLAY SOLUTIONS

Most screen technologies are limited to 16:9 format.

However, in many cases, it is desirable to install a screen with a different format, and often a customized format.

Expromo Any Format Display Solution (AFDS) supports this. Virtually any screen size in any format can be made – with no extra cost.

If you need a screen to fit your wall and/or content, Expromo AFDS is the key to a compelling screen solution.

- Any size and format possible
- No limits but your imagination
- Any custom resolution possible
